Teaching Experience

Lahore University of Management Sciences, Pakistan   08/2015-05/2017
Teaching Assistant

- Selected and worked as a teaching assistant in Econometrics, Mathematical Application in Economics, and Principles of Finance
- Managed the workload of a class more than 100 students that included teaching, invigilating, marking and maintaining coursework.
- Conducted tutorials/ supervisions at the end of every week
- Gained the self-confidence to take on work, put forward views and handle question and answers.
- Helped with improving teaching skills and management skills.
- Enhanced my own understanding of the core concepts of Economics and Finance and honed my skills of organizing and communicating my thoughts in front of a responsive and critical audience

Research Experience
Projects

- was part of an Econometrics project and a finance project at Lahore University of management Sciences (LUMS)
- led both the projects as a project head
- Developed project management and leadership skills
- The finance project dealt with a quantitative analysis of the financial statements of Pakistan State oil, a parastatal oil company, which acted as a great opportunity to grab on my statistical computational skills which are very important in finance.

Research Assistant- University of Cambridge

- worked as an RA with Dr. Melvyn Weeks, a leading econometrician at the university and assisted him with his paper on economies of block chain.
- Attended seminars with him on "block chain and developing economies."
- Enhanced my understanding of the practical applications of economic models in real life.
- Helped me improve my communication as well as management skills.

Work Experience
Coca Cola Pakistan Beverages Limited (CCBPL)
Intern

- Assigned to be part of the research team at CCBPL as an intern for the commercial sales department
- worked for the implementation of a new budget rationing project in which I was given the responsibility of analyzing financial data
- Helped with improving my financial data handling skills
- Developed project management and consulting skills through attending training sessions and client workshops
- Helped gain insight into the practical application of finance and financial policies in the real world

Indepen, UK
Intern

- Selected as an intern at a leading policy making company in London to help them with their finance project dealing with accounting and decomposition of betas.
- Helped with the numerical analysis of data collected via surveys which also improved my data handling and analytical skills
- Gained the self-confidence to take on work and put forward views.

Professional Roles/Awards

- Received Dean's Honor List Award for excellent academic performance in the years 2014-17
- HR director of the LUMS Gaming Society (LGA)
- Headed the LUMS relief drive for earthquake victims
- President of the 'Mathematics Society' during GCSE school
